Connecticut Eye Consultants Introduce The

PANOPTIX® LENS IMPLANT

The PanOptix IOL is a cataract lens implant designed to provide clear vision for near, intermediate, and distant vision without glasses after cataract surgery.

Discover the PANOPTIX® LENS DIFFERENCE

With this 'game-changing' trifocal lens implant, we're now able to customize your cataract procedure to fit your unique lifestyle. If you're ready to enjoy a full range of clear vision, come SEE if the PanOptix is right for you.

First and only
trifocal lens in the U.S.

Over 100 million
lenses implanted and counting.[1]

Enhanced vision
for clear, complete focus.

Available with
astigmatism correcting technology.

RESULTS YOU'LL LOVE

In a clinical study, 129 patients were asked about their experience with the PanOptix® Lens:

99% of people with the PanOptix® Lens would choose the same lens again.[2]

98% of people with the PanOptix® Lens would recommend it to family/friends.[2]

80.5% of PanOptix® patients reported that they **never had to wear glasses to see**. [2]

IS THE PANOPTIX® IOL RIGHT FOR YOU?

The best way to determine if you are an ideal candidate for this breakthrough tri-focal lens implant is to schedule a cataract evaluation at Connecticut Eye Consultants location near you. Call 203-791-2020 to get started on your journey to the vision of your youth.
