

Myopia can keep
your child from seeing
the full picture.

Learn more about CHAMP – the study of an investigational eye drop being evaluated to slow the progression of nearsightedness (myopia) in children.

To pre-qualify for this study, your child must:

- Be 3 to 17 years of age
- Have been diagnosed with nearsightedness (myopia)

All study-related visits, tests, and drugs will be provided at no cost. In addition, reimbursement for study-related travel may be provided.
